

CAN STILL GO TO THE CAMP

LOCAL LADS DESIROUS OF ATTENDING CAMP ROOSEVELT STILL HAVE OPPORTUNITY.

Final arrangements have been completed, and Camp Roosevelt stands ready to welcome boys from twenty-one states in the union to its midst. Officers and non-commissioned officers have been ordered to the camp by the U. S. War Department. Y. M. C. A. secretaries, Red Cross workers, physicians and nurses, and other welfare secretaries stand ready to do their share in giving to these American lads the best summer's outing that ever a boy could have.

It's going to be a healthy, happy summer for these boys. The program for the day consists of drills and lectures in the morning, and recreation and sports in the afternoon. Each student has a chance to compete for honors constantly, as competitive drills, athletic matches and meets are held every week. Swimming, shooting, boxing and excellence in drill are all rewarded. The Roosevelt medals are open for competition, and are admitted an honor worth winning.

Captain F. L. Beals, camp commandant, has left for the camp to supervise the many new changes and improvements which have been planned for the 1921 Roosevelt.

An unusual number of special events and programs have been arranged for the summer, and the entertainment promises to be of the very highest type.

Although registrations for the first period have closed, this does not mean that boys may not enter for the second, third and fourth periods. Many vacancies still exist in these periods, and applications will be accepted if sent direct to Camp Roosevelt, Muskegon, Michigan.

Chamberlain's Colic and Diarrhoea Remedy

Every family should keep this preparation at hand ready for instant use when needed. Severe attacks of colic and cholera morbus often prove fatal before medicine can be procured or a physician summoned. The uniform success that has attended the use of this remedy and the prompt cures which it has effected have made it a staple article of trade.—02-4w

Spokes Around The Hub

Has Close Call—The \$3,000 barn located on section 19, Elba township, belonging to Jotham Allen, burned to the ground recently.

The blaze was discovered about noon and had made such headway before that, that it was impossible to get out all the tools. Two veal calves and two or three hundred fence posts were also lost.

Barn Burned—During the electric storm Charles Aldrich, Lafayette farmer, had a narrow escape.

Mr. Aldrich had been out in the field cultivating corn, and started for the house about 5:30, when a bolt of lightning struck one of his horses, knocking the other horse down, breaking the cultivator, and throwing Mr. Aldrich over the front of the cultivator between the two horses where he lay in a dazed condition.

The hired man who was also in the field about twenty rods away saw what had happened and ran to give assistance. After a short time he succeeded in bringing Mr. Aldrich to the house. Mr. Aldrich thinks that perhaps his life was saved because of the fact that when he fell both shins were cut on the cultivator, starting the blood circulation immediately.

Breckenridge Chautauqua—The dates for the Chautauqua at Breckenridge have been set for Wednesday, Thursday and Friday, July 27, 28 and 29.

Escapes from Asylum—George Cochran, the "naked wild man of the woods," who was captured over a month ago by Sheriff Ryan and his posse near North Bradley, Midland county, has been making himself more notorious than ever. Shortly after being confined in the Bay County jail, George was sent to the Traverse City state hospital for the insane. But George, who is a modern jollity in stature, had been confined here but a few days when it was reported that he had escaped, and it was not long before neighbors north of Bradley were frightened by his reappearance.

Last Friday night Sheriff Ryan made a futile trip to North Bradley in search of Cochran. The first of the week the Saginaw authorities sent word they had captured "Midland" Wild Man about nine miles out of Saginaw. Wednesday he was removed to Bay County jail, and the Traverse City authorities will probably have another chance to confine him.

Booze Runners Nailed—Recently shown near Sicks Deputy Sheriff Jay Willett landed two booze runners with an automobile. They were placed under arrest and taken to Ithaca, they pled guilty to the transportation of liquor and were placed under bond of \$1,000 each. They will be sentenced later.

Lightning Hits Boy—Lightning struck as its victim in Tuesday's storm, Henry Braden, the 13 year old son of Mr. and Mrs. Crawford Braden, who live on the William Murphy farm near Lenton.

Henry was working on the farm of Lloyd Harrison and was cultivating corn when the storm came. Immediately after the storm his horse was sent to the barn. Search for the boy resulted in finding his body under an oak tree in the field near where he was at work. The lightning entered the boy's body on top of his head and passed out leaving the soles of his shoes.

Funeral services will be held Friday. Interment will be in the Edmore cemetery.

Catch Simmons Married—Last Friday evening at the senior alumni society banquet, the engagement of Mr. Joe Simmons, coach at the Normal, and Miss Bernice Ackerman, instructor in the art department, was announced. They are two of the Normal's most popular and well-liked young people, both in the social and professional life of the school, and although both are new at the up-state school this year, they have made a lot of good friends.

Night Fair at St. Johns—At a meeting of the officers and directors of the Clinton County Agricultural society it was decided to wire the fair grounds for electricity. The job when completed will cost the society about \$2,000. Three wires will be run from Clark avenue to the grounds, a distance of about a mile. Two transformers will be installed at the north end of the "Midway," and wires will be run to all of the buildings. About 150 lights will be used and the grounds will be well illuminated.

New Plant Completed—The St. Johns city water plant is one of the attractive business places of the city, and St. Johns people. Equipped with modern power and pumping machinery, for either steam or water power, St. Johns may well feel proud of its modern plant. The work of transformation that has been going on for the past year, has been completed and nothing remains of the old machinery that had worn out through years of service. Everything is new and up-to-date. New concrete floors have lately been installed which finishes the job.

Barber Gets Vacation—Word was telephoned to Shepherd one day recently that there was a car in the ditch near the McFarren farm and that the driver evidently needed the attention of an officer. Deputy Sheriff Cole went to the scene and found Dan Donosuk one of the tennorsal artists in the barber shop at the Calhoun House in something of a pickle. Dan had a can of liquid in his posses-

sion and evidently more on board and the deputy sheriff loaded the barber and his load into the car and brought him to Shepherd. When they reached Wilson's corners Dan evidently thought it about time to get rid of the evidence and proceeded to throw it from the car. When the officer attempted to frustrate his efforts he lost control of his car and ran into a guy wire jamming up the radiator quite badly.

Body Returned—The remains of Edwin Y. Stiles, the first Clinton county boy killed in France, was returned to St. Johns last week. Funeral was held Friday afternoon. The St. Johns American Legion Post is named for him.

Another Isabella Still—Sheriff Landon and Deputy Richmond of Isabella county, are giving the booze-brewers a race for their money, believe us. The "wine room" of the jail now contains a very fine display of stills, jugs, bottles and cans, and yesterday another addition of two quart bottles, a one-gallon jug and a two-gallon jug filled with a good grade of hooch was made to the collection.

Wednesday night the sheriff and deputy went out to the James Brown farm, east of the city a mile, and crawling along under cover of darkness, saw a man go to the hidden still—buried in the ground and all nicely

covered with sod, a small stone evidently placed there for a marker. Then, using their hands for spades, they dug. And it was a rich find. Besides the still, which was a good one they found the liquor mentioned.
